

InstantRetail

by UniSource

powered by Sage 200 Evolution & Sage Business Cloud

InstantRetail offers a proven and advanced accounting engine, and now, a custom-engineered solution for the SPAR retail business addressing the retailer's needs for instant retail management information that goes beyond accounting!

More Bang For Your Buck - Guaranteed

Sage 200 Evolution & Business Cloud - Accounting engine powered by 20 years of accounting and industry R&D

Solution designed & engineered with SPAR - An approved SPAR solution for your retail operations

Offers Retail-Critical business tools

- Fully integrated to SPAR systems - SIGMA
- Automated DC Warehouse / Drop-Shipment reconciliations
- Business Alerts permit incisive management decisions - e.g. trigger on value of claims
- Claims Dispute Manager permits filtered reporting on unresolved claims
- Visual Report Manager permits drill-down to source transactions

InstantRetail Approved SPAR Modules

Sage Accounting Platform Core Module - Comprehensive accounting & financial management system

Bank Manager - For electronic import of your bank statements (auto-reconciles to cash-book)

Business Intelligence - For InstantRetail management reporting (includes over 100 reports)

B2B Gateway - Fully integrated with SIGMA for automated imports of SIGMA data

Supplier Recon & Credit Manager - For automated DC / Drop-Shipment statement reconciliations
